Re: AB 960 (Lowenthal) Recycling: Electronic Waste - Support

Dear Assembly Member Chesbro:

The California Resource Recovery Association, founded in 1974, is California's statewide recycling association. It is the oldest and one of the largest non-profit recycling organizations in the United States. CRRA is dedicated to achieving environmental sustainability in and beyond California through Zero Waste strategies including product stewardship, waste prevention, reuse, recycling and composting. CRRA advances local, regional and state wide waste reduction efforts which result in critical environmental and climate protection outcomes. CRRA's more than 500 members represent all aspects of California's reduce-reuse-recycle-compost economy. Our members work for over 100 cities, counties and municipal districts, as well as hauling companies, material processors, non-profit organizations, state agencies, and allied professionals.

AB 960 would require e-waste recyclers to conform their export practices as a condition of receiving existing recycling payments under California's e-waste law. In addition to ensuring greater environmental safeguards for the management of this growing discard stream, this bill would help create sustainable, domestic jobs collecting and recycling electronic products.

Please vote YES on AB 960.

J. Muir

Julie Muir
President, CRRA
